

# “Soaring Victoria”

VSA NEWSLETTER - AUTUMN EDITION

## Welcome Lumpy!

Lumpy Paterson of [Tocumwal Soaring Centre](#) has joined the VSA Committee and we very much look forward to his input over the coming months.

Got a news story or club happening or event, send info to [president@gliding.asn.au](mailto:president@gliding.asn.au)

## VSA Facebook

Check out the Twin Astir from South Gippsland Gliding Club on the VSA FB landing page! The newsletter received some great pics for our FB site, so keep them coming and we can then feature them in the newsletter!

## Soaring Development Panel

The Mande-news in November last year contained details of a change of name of the old Sports Committee to Soaring Development Panel (SDP) and the RTO/Sports to be named Soaring Development Manager (SDM), as well as the five SDMs becoming full members of the SDP.

It's become clear that the majority of members do not understand why this was done and what it means for them and their clubs, soooooooo hopefully the following will provide that information.

Firstly, the results of the surveys that the GFA carried out over the last few years are clear that we could do better and strategies have been developed. This is one such instance. It was clear that the GFA membership as a whole considered the Sports Committee concentrated too much on competitions and not enough on cross country flying in general, as well as providing coaching to all. Both MOSP 4 and the makeup of the Sports Committee generated that perception as well as encouraging that outcome in reality.

The name change to ***Soaring Development Panel*** is intended to change the focus from a narrow definition of Sport to embrace all of Soaring (competition being a small part of this). At the same time, the RTO/Sport title was changed to Soaring Development Manager for the same reason. Adding the five Soaring Development Managers to the (now) Soaring Development Panel means that in practice, soaring has a louder voice than competitions. These are not name changes for the sake of it or to try and change perceptions, but are changes to reflect how GFA intend the Soaring Development Panel to operate moving forwards.

## GFA

The GFA April Board meeting in Melbourne was predominantly to discuss the budget. As you are aware, the GFA fees have increased significantly to \$320 per annum. The GFA will also look at a 5% decrease in all their expenses to decrease the budget deficit. Insurance costs are quite significant to the budget, so perhaps it is timely to have that conversation about situational awareness, safety and Target Zero during your Winter lectures and briefings.

## Soaring to the Future (S2F) Participation Strategy

Members are still asking about S2F and what is it and how does it affect your club and the gliding movement as a whole. Follow the link to the [DiscoverSoaring](#) website and the link to the [S2F Participation Strategy](#). It's your strategy, it's your sport.

## VSA Governance Criteria

A criteria going forward for VSA, WAGA and NSWGA to receive funding from State Governments is to have 40% women on Boards or State Associations. With so few women pilots in the sport, this is difficult to fulfil. State Associations are seeking non-flying members to assist who may be interested to be part of the sport's governance.

**The VSA is still seeking the services of a Secretary.**

## Sport & Recreation Funding

As part of procuring funding from the State Government to support our aspirations to grow and maintain our sport in its current format, we are required to comply and formulate our strategies to align not only with the GFA strategies, but with the criteria that is important to the State Government's initiatives. Hence, the request for involvement in programs that are important to the Department of Sport & Recreation. Our initiatives and requests for funding are predicated on their criteria and we must report every six months on whether the Victorian gliding clubs are achieving those initiatives. If we are not, then our funding may be reduced or cancelled.

**This is where you come in!**

Without your involvement, enthusiasm and willingness to participate, you, as members and clubs, will ensure that the VSA cannot fulfil its obligations. If you are not involved in programs such as Premier's Active April, This Girl Can, Access for All Abilities, Club Health Checks, Succession Planning, training seminars and progressing our sport then the VSA may not be able to support your flying programs, workshops, seminars and training subsidies.

If you or your club are not involved in the government initiatives, then speak to your club committee to see how you can be involved – or organise the activities with other club members or other clubs as a working group and collaborate on a project.

Help us to help you!

## Sport & Recreation Funding – 40% Women on the Board

On 24<sup>th</sup> April, 2019, the VSA received a letter from the Minister Tourism, Sport and Major Events, the Honourable Martin Pakula MP to advise that on 1 July 2019 to remain eligible for sport and recreation program funding, the VSA is required to maintain at least 40 per cent women on its board or governing body. Currently, we meet and are above the quota.

The Victorian Government is committed to promoting gender equality at all levels of sport and active recreation in Victoria and the introduction of the 40 per cent quota aims to bring about long term cultural change for Victorian sport in order to grow and strengthen sport and recreation organisations through good governance practices.

# Fair Play Code

## **What is the Fair Play Code?**

The [Fair Play Code](#) is the Code of Conduct for Community Sport and this commenced on 1 July 2018. It is one of the Victorian Government's key initiatives under the Victorian integrity in sport action plan to tackle the growing number of integrity challenges.

The VSA has been given permission by Sport & Recreation Victoria to use the government Fair Play Code document on the VSA website.

## **Who does the Code apply to?**

The Fair Play Code applies to every person involved in sport and recreation in Victoria including training and club sanctioned activities.

## **What does the Code do?**

The Fair Play Code provides updated guidelines on expected standards of behaviour with the aim of encouraging a safe, welcoming and inclusive sport and recreation environment

## **What are the Code responsibilities?**

Victorian sport and recreation organisations:

- are encouraged to incorporate the Fair Play Code into their code of conduct, member protection policy, constitution or other governance documents.
- must demonstrate adherence to and enforcement of the Fair Play Code, to be eligible for funding from Sport and Recreation Victoria.

**NB: To be eligible for VSA funding, adherence to and enforcement of the Fair Play Code will be a requirement of all Victorian gliding clubs.**

There are some great resources [located here](#) to put on your club noticeboard, website or social media.

The Victorian Soaring Association strongly encourage you to look at the [Play By The Rules](#) website which also contains a number of useful guidelines and templates. There's been a couple of updates and a new release on Play by the Rules that I thought you'd be interested in. The first is an updated section around inclusion and diversity issues, so [check it out to here](#).

And if your club struggles with handling complaints (who doesn't!) then Play by the Rules just published part 2 of the '[Managing Conflict at your Club](#)' series - it should help!

# MPIO – Member Protection Information Officer

The VSA Member Protection Information Officer is Alf McMillan. Alf is currently preparing information sessions on the GFA Member Protection Policy to be inclusive of all Victorian clubs. He will be reaching out to your Club Presidents shortly with program details.

# Child Safety Statement of Commitment

The Victorian Soaring Association is required under our funding application to State Government to provide information to clubs in relation to being child-safe organisations, with zero tolerance for child

abuse. We aim to create a culture of child safety that reduces the opportunity for harm and gives all members of the association a clear process to follow when someone raises concerns about child safety or reports abuse.

The [VSA Child Safety Statement of Commitment](#) applies to all Clubs and Volunteers and can be found on the VSA website. If your club does not have a Child Safety Statement of Commitment, please use the VSA statement or prepare your own with your club logo and place on your noticeboards and reference in your newsletters.

## Winter Series Programs

Do you have an event or activity happening at your club during Winter? Send an email to [president@gliding.asn.au](mailto:president@gliding.asn.au) to put in the VSA newsletter so that other pilots can share what you have to offer.

## VSA Members' Survey

VSA have compiled a number of questions to ask the Victorian members and a link to Survey Monkey will be sent through shortly. Please take the time to complete so that we can have a good overview of what you feel on issues pertinent to you.

## EI Presidente on the move....

During the last AGM in August 2018, the assembled gathering was advised that EI Presidente would be making **unscheduled** visits to all clubs once the soaring season moved into hibernation. So, the time has come and The Taj will be on the move and I hope to see you over the coming months. I have already visited Nagambie, Tocumwal and Mt. Beauty since December (as they were close to home!) Look out for the Avan.....

## “Change our Game”

The Change Our Game Women in Sport and Recreation Communication and Marketing Guidelines have been developed in conjunction with the Victorian Equal Opportunity and Human Rights Commission (VEOHRC). Effective marketing can play a key role helping clubs increase membership, improve culture, attract support and contribute to building stronger and healthier local communities.

These guidelines focus on four key areas:

- Smart strategies for marketing to women
- Smart strategies for selecting imagery
- Smart strategies for using social media
- Smart strategies to using inclusive language and terminology
